

NOVATINES

**BATH BASED ALT-ROCK 4 PIECE,
NOVATINES RELEASE BRAND NEW SINGLE/VIDEO
'HATE LOVE' ON FEBUARY 22ND AHEAD OF EU AND UK TOUR.**

After storming the stages and eardrums of the anthem hungry masses, Novatines took up residency at Peter Gabriel's legendary Real World Studios with guitar rock legend Andy Scott of Sweet at the producers helm.

Hate Love captures lightning in a bottle and spits it back out through gritted teeth, blending the snarl and abrasivness of today's modern rock acts such as Foo Fighters and Royal Blood with the spirit of Led Zeppelin, Nirvana and The Who. Recorded live with no smoke and mirrors, Hate Love is Novatines statement of intent, and it's one of honesty in it's rawest form.

The band have been tipped as one of the 'hottest new UK guitar bands' and will be touring relentlessly through the UK and Europe during the spring.
